STRATHCONA, ALBERTA, THURSDAY, NOVEMBER 5, 1908

No. 149

## The Aftermath Pembroke Of Election Fire Swept

London, Nov. 4.—The press of London regards the election of Taft as a matter for general and world-wide congratulation as it "ensures a continuance of a policy which has been generally approved in England." "The policy which Taft has inherited," points out the Evening Standard, "is in a large measure accountable for the leap to the front made by America in recent years, and her present position as a power among the powers, is due, to an unusual extent, to Taft's labors in a close alliance with President Roosevelt."

Paris, Nov. 4.—The generally good impression upon the financial settlement of the city produced by the election of Taft has, even after the lapse of a few days, not been at least temporarily, by the re-occurrence of anxiety over the attitude adopted by Germany in the matter of the Casablanca incident. This is the case of despatch by several German newspapers which have called for the foreign legion of the French army. Germany asked satisfaction for the question of international law involved in the right of Germany to protect her subjects who had enlisted in a foreign legion and who subsequently deserted. France accepted this proposal, provided that the armistice should cover the question of fact whether or not German influence at Casablanca inspired desertion in question. Germany refused to consider and France declined to modify her attitude.

### PROVINCIAL TREASURER CAN NOT LIVE.

Winnipeg, Nov. 3.—At once today the physicians attending Hon. J. H. Agnew, provincial treasurer gave up hope and his death is a matter of hours at most.

A melancholy coincidence attaches to the event, for in less than a year, say from Nov. 28, Mr. Agnew, provincial minister of education, died at Brandon under almost identical circumstances following an operation for appendicitis.

While in a unusual degree had the confidence of the electorate and a very wide circle of friends.

## TAFT'S CABINET

Cincinnati, Nov. 4.—Frank H. Hitchcock, of Massachusetts, first post master general, Elihu Root, New York, secretary of state; George Von L. Meyer, of Massachusetts, secretary of the treasury; Luke H. Wright, of Tennessee, secretary of war; William Lusk, Jr., of New York, secretary of the navy; James Rudolph Garfield, of Ohio, secretary of the interior; Frank B. Kellogg, of Minnesota, attorney general; James Wilson, of Iowa, secretary of agriculture; Oscar S. Straus, of New York, secretary of commerce and labor; in the cabinet announced today. While it is not consistent with newspaper ethics and not in accord with the precedent established decades ago that the president, or president elect, should be quoted, this announcement because of fiscal today as a forecast of the cabinet that will be appointed by President elect Taft. This statement gains credence because it comes direct from his most intimate friends.

Pembroke, Ont., Nov. 4.—The fire which swept the heart of the business section here this morning when suddenly after eight hours had been about \$50,000 damage. There is at least \$275,000 insurance in British and Canadian companies. The chief losses are: National Manufacturing company, \$40,000; insurance \$50,000; Mrs. J. W. Munro, \$75,000, fully insured; J. P. Miller, \$30,000, partially insured; A. Miller & Sons, \$50,000, partially insured; Moffat Estate, \$10,000; Pembroke Milling Co., \$40,000, insured; Mrs. W. W. Dickson, \$12,000. Branches of the Bank of Ottawa, Quebec bank, Bell Telephone, Dominion Express, two hotels, public library, and six private residences were also destroyed. About 250 men are out of work and business and professional men have difficulty in securing quarters. In the vicinity of the Island Hotel, the fire was checked. Around the old Manitoba Hotel, the fire was apparently under control at 6:30 o'clock, but at 6:30 it had caught in the wooden buildings and bookshelves along river front near the bridge, and opposite the post office. The fire broke out in a frame butcher shop between two large brick stores, and then it swept around and caught in the wooden work of the bridge, and swept back towards the Copeland House. Soon the whole block of brick stores were on fire. Passage across the bridge was stopped. When the Pembroke fire brigade arrived they did heroic service and all that was possible for human strength, already directed to stop the progress of the fire, but the strong wind blowing from the river toward the town made it impossible for them to overcome the flames.

## BERLIN INTERESTED IN PRESIDENT TAFT

Berlin, Nov. 4.—Extra editions of all the big newspapers, announcing the election of Taft as President of the United States, were circulated here at 7:30 o'clock this morning. Receptive interest was taken in the results on account of the presumed good effect of the election on the business situation in the United States if Taft was victor.

Washington, Nov. 4.—This administration has been steadily effort and progress which will never be allowed to deviate into unwise radicalism on the one hand, nor into unwise conservatism on the other. The nomination of Taft was a triumph over the reactionary conservatism, and his election was a triumph over the unwise and improper radicalism. Roosevelt in this instance summed up his understanding of the popular verdict in the elections yesterday and the overwhelming election for Taft. Turning suddenly from a grave consideration of the results of the election, the president observed, while a broad smile played upon his face: "The Democrats all over the country today understand what I meant when I said Monday that we had them back to a fault." There has been some curiosity to know what I meant by that term. All I can say is to tell them to look at yesterday's election returns for the definition of the word."

## A Reign Of Terror

Torrey, Mexico, Nov. 4.—The terror which has reigned for a fortnight or more in the mining camps of the state of Durango, and all along the American border, was a result of the continued lawless attacks of bandits on the camps and haciendas there, has been brought to a climax by the murder of two Mexican miners. The Mexican government around here, by the repeated protests of influential citizens, and the official action of the American ambassador, has declined to act with all the force at its command, and has called out several companies of soldiers to win down the bandits. That the punishment of any who are caught will be summary is indicated by the statements of the authorities. The lawless element has been growing more and more bold for a month or more, and the authorities have been apparently unable to control it. Both the civil authorities and the government have been active for several weeks, but robbery after robbery and murder after murder have been committed and few arrests have been made.

As to the ring leader of the outlawry, there is not a suspicion pointing to anyone unless it is to certain noted desperado and bandit known as "El Chapo Anselmo," who is believed to be in the district. He is one of the last of many who have operated in the mining regions of Mexico for years, most of his followers have been killed or imprisoned. The last one to go was a notorious robber who was killed near this city about three months ago by his own followers, whom he had deserted out of their share of the spoils and who waylaid him.

El Chapo is known to be in the vicinity of Irapuato and the vandals and assassins. Six murders have occurred within a fortnight that have attracted the attention even of the federal authorities, and one of them caused the American ambassador to protest.

The government, as a result, ordered the militia into the field, and even since they took up the work, these more murders have been added to the series of crimes. Information came today that Jose Angel, former of the Majada mine, in the state of Durango, and a man was supposed to have been killed.

(Continued on page 3.)

### BALLOON FATALITY

Princeton, Ill., Nov. 4.—Pete Kramer, of St. Louis, was killed when the chimney of the Methodist church and killed here this afternoon, while making a balloon ascension at the farmers' carnival. One hundred, a seven-year-old boy was standing near the church, was struck by a falling brick which fractured his skull. He is probably fatally injured. The accident was witnessed by nearly 1000 people. The balloon went up from a canvas lot in the rear of the church. A strong wind was blowing and efforts were made to dislodge Kramer from attempting the ascent. "I will make the parachute jump today if I do it," he replied. They were the last words he spoke as he left the earth. When the balloon ascended Kramer became entangled in the ropes, and was dashed against the church and steeple. The rope broke, and he struck, then fell to the ground and was almost instantly killed.

## Judge Did Not Agree

Vancouver, Nov. 4.—Because he does not agree with the jury which last week convicted James Jenkins, colorist, of the murder of Mrs. Mary Morris, of Hazelton, Chief Justice Hunter today granted the appeal of one of the most brutal murders that ever occurred in British Columbia. He was sentenced to be hanged on Dec. 21.

M. E. Cassidy, counsel for the crown, declared in court today that the conviction was fully warranted by the evidence and then engaged in a heated word battle with the chief justice over the merits of the case.

"You cannot always catch me red-handed," said Cassidy. The judge: "No, but you want something more than a string of probabilities. You want reasonable certainty." Mr. Cassidy sharply replied: "The trial of a murder case does not depend upon your lordship's view as to what the evidence is, but upon the evidence and the jury took another and it was for the jury to pronounce upon the case."

The court: "That does not trouble me. I simply say that my mind was a condition of doubt."

### NATIONAL OPERA CO.

Scene from the National opera company at the Edmonton opera house, week starting Monday, Nov. 9.

From the interest already shown in the advance sale of seats for the engagement of the National opera company, this excellent company will play to crowded houses. Every opera that they will produce here for the week commencing next Monday is greatly new to our theatricals. The opening opera, "The Grand Duchess," is by Offenbach, and appeals to all who love good music and sparkling comedy. "The Highness of the Boy," by Wagner, is a new opera, which will be produced here for the first time. The company will be in the city for six months without a break in the La Salle Theatre, Chicago, and the total receipts of the engagement far exceed that of any musical attraction that has ever played the windy city. "The Boy" which will be produced during the last part of the week, is an old English musical comedy that made such a tremendous hit in England, playing London for over 300 nights.

## C. P. R. For Ex-President

Montreal, Nov. 4.—Sir Thomas Duggan, in an interview here today, stated that Victorians would have an opportunity to see the Atlantic Empresses on the Pacific. This is taken here to mean that the frequently reported and as frequently denied intention of the C.P.R. to send the three Empresses from the Atlantic to the Pacific to be put on the Vancouver-Hong Kong run is about to be carried out, the Atlantic ships to be replaced by larger and faster ones of the Canadian type. The strategic importance of the transference of the Atlantic Empresses to the Pacific could scarcely be overestimated at the present moment, the service connecting the two oceans by which the Japs are driving the American fleet off the Pacific is due to leave the Canadian before long the only rival of the Kaisha ships. Practically all the trade which the Japs cannot secure, which means the active Canadian passenger trade, will eventually fall to the Canadian lines. There are already five ships on the C.P.R. run on the Pacific and as addition of the Atlantic Empresses would put the Canadians so far ahead of others that there would be practically no competition.

Furthermore, the Grand Pacific Pacific has only recently completed a deal by which the Atlantic will operate a first-class passenger steamship service between Prince Rupert and the Orient as soon as the railroad is completed. Undoubtedly one of the considerations inducing the C.P.R. to move the Atlantic fleet to the Pacific was no less that they would thereby gain a great advantage in priority over the Grand Trunk.

### NOT GUILTY OF MURDER.

Leithridge, Nov. 4.—In the supreme court today Mrs. Vadhwa and brother Thugla Bissette, were found not guilty of attempting to murder the woman's husband, Richard Vadhwa at Boundary Creek near Creston last August. Evidence showed Vadhwa came home drunk and a reign of terror followed. Bissette, wounded Vadhwa with a revolver shot which evidence showed was in self defense.

### GLIDER DID NOT GLIDE.

New York, Nov. 4.—Walls between fiction and reality thousand feet apart at Morris Park where the automobile society held their first exhibition, owing to me were one out of a dozen entirely left. Lawrence J. Leth was the only one of them who was able to get above the ground at all and he fell in the attempt from his machine "Glider." Young Leth, who is but sixteen years of age and boasts he has "glided" six miles above the St. Lawrence river, is in Portland, Maine, with two broken legs. His machine "Glider" is a high powered outboard, none other than a Thomas Flyer, which recently made the trip around the world. The propelling power was too much for the small aeroplane. Fifty feet above the ground "Glider" suddenly turned turtle. Leth died head first to the ground. The machine collapsed. Leth was hurried to the hospital where he will remain for some time.

## Palma Dead

Havana, Nov. 4.—Thomas Estrada Palma, first president of the Cuban Republic, died at San Diego this afternoon of cancer. Although Palma was removed from office by the people there was no charge against him personally. His political affiliations caused the failure of his government. The moderates who ended his political career are now in San Diego on a presidential campaign and will attend the burial of the man whom they made an outcast and drove paternally to his grave with a broken heart. The whole people mourn the loss of the venerable palmer.

## CORRESPONDENCE

Strathcona, Nov. 3, 1908

Dear Sir—You will no doubt remember that during the bye-election in Strathcona constituency on April 15th, 1906, our author shortly afterwards a controversy arose as to how it was possible for the Conservative, a town six months old, to produce the enormous vote it did on that occasion for the Liberal candidate, the vote coming the second highest in the constituency. Strathcona City, among first. Such towns as Watkinson, Red Deer, etc., being completely removed under by the vote from Vermilion poll. Even the Saturday News of Edmonton advertised that the poll there that town was not included in the light, because it might make a worthy study. The constituency of Strathcona was divided, since the bye-election and Victoria constituency which Mr. Morrison and Mr. White were contesting was formed for the general election of Oct. 26th. By the official returns published the vote read for Vermilion 67 votes for the Conservative, candidate Morrison and 59 for the Liberal nominee White and his is the vote that had had six weeks to prepare and gather in, whereas in the bye-election only four days was the limit. Hence the Conservative candidate did not enter the contest until then, so that the time to get the most canvassed and in would most certainly be less.

Strange to say in the bye-election on April 15th, 1906, the vote stood 67 for conservatives for Dr. Craig and 59 for Dr. McIntyre. That is to say the vote 3 years ago was during the present contest, 1906 67 and 59, 333 total 1908, 67 and one out of a dozen entirely left. Lawrence J. Leth was the only one of them who was able to get above the ground at all and he fell in the attempt from his machine "Glider." Young Leth, who is but sixteen years of age and boasts he has "glided" six miles above the St. Lawrence river, is in Portland, Maine, with two broken legs. His machine "Glider" is a high powered outboard, none other than a Thomas Flyer, which recently made the trip around the world. The propelling power was too much for the small aeroplane. Fifty feet above the ground "Glider" suddenly turned turtle. Leth died head first to the ground. The machine collapsed. Leth was hurried to the hospital where he will remain for some time.

Yours truly,  
"FAIR PLAY."

### CURRENT COMMENT

It has been decided to discontinue the morning edition of the Chronicle and to substitute therefor a semi-weekly issue. The reasons that have led up to this report are numerous and need not be expatiated at length here, but we believe that this change will prove satisfactory to our readers, our advertisers and ourselves. The difficulties of producing a daily paper that will meet with our own approval as well as those of our readers in a community of the present size of Strathcona are great and we may admit freely that we have not been satisfied with what we have been able to place before our readers. We have to thank them, however, for the consideration which they have always shown us. So far as the advertisers are concerned we have to thank those who have used our columns and ask for assistance in their business in our semi-weekly edition. We feel that in many cases we have had the support from some of our principal merchants that might have been expected. However, that is a matter for their own consideration. It must be borne in mind that the Chronicle depends entirely on its readers and its advertisers for its existence and not being in the position of contemporary and running columns of government advertising, federal and provincial. So far as the provincial aspect that we have had a hard deal. Nevertheless, we have an infinite belief in the future and are confident that the day will yet come when the paltry method of boycotting a paper that is politically opposed to the government will only result in contempt for the men of these methods. The arrangements that we have been able to make will give our readers a well printed, readable paper. We will pay more attention to the local side of the paper which has, owing to our small staff and daily issue been somewhat neglected. We will also be able to issue with perfect regularity and be no longer at the mercy of the break down of a machine as we were in the daily issue. The new weekly will be issued on Tuesday and Friday mornings and will be delivered to our city subscribers on the forenoon of these days and we trust that our readers will cooperate with us in seeing that they get their papers. We have no method of knowing that the papers have not been delivered unless complaints are made and we will welcome any reader who will assist us in this matter by reporting non-delivery at once. We would ask our present advertisers in our weekly edition to see us with regard to advertising in our Tuesday edition as well. We are prepared to give them special terms but we have to point out that they have numerous enquiries as to fresh advertising and we desire to make our arrangements complete. The daily issue will end with Saturday and we will commence issuing semi-weekly on and after Friday next, Monday being Thanksgiving day we have decided not to issue on Tuesday in order that we may have matters thoroughly in shape before starting our semi-weekly issue.

Rumors in these columns we published a letter which we have received from a well known citizen and which is worthy the attention of all thinking men. It certainly does show some extraordinary that the vote in Vermilion has collapsed in this way and we do not think that the citizens of that town will be at all pleased to find that whereas the vote in every other city has increased largely in Vermilion has diminished greatly.

Take for instance our own city. There the vote in the bye election were cast as follows:  
 Strathcona A, Dr. Crang, 63; Dr. McIntyre, 78.  
 Strathcona B, Dr. Crang, 79; Dr. McIntyre, 86.  
 Strathcona east, Dr. Crang, 103; Dr. McIntyre, 122.  
 Total, Dr. Crang, 229; Dr. McIntyre, 266.  
 Total vote cast, 515.  
 In the recent election the Strathcona voters cast were as follows:  
 Anderson Day McIn's  
 Poll No. 1 ..... 5 175 98  
 Poll No. 2 ..... 7 100 38  
 Poll No. 3 ..... 9 195 144  
 Poll No. 4 ..... 7 137 121  
 Poll No. 5 ..... 1 31 22  
 Total ..... 26 495 464

It will be seen that in Strathcona city the vote has almost doubled and yet in Vermilion the poll was as follows:  
 1906 bye-election,  
 Dr. Crang, 67; Dr. McIntyre, 250.  
 Total vote, 317.  
 1908 General election:  
 H. A. Morrison, 67; W. H. White, 95.  
 Total vote, 163.  
 The Conservative vote remained the same but the Liberal vote dropped one hundred and sixty.  
 We suppose that if we were even to hint that there was something very fishy about Dr. McIntyre's 1906 vote the doctor and his supporters would be most indignant. There are, however, a large number of people who are not party bound and who can draw their own conclusions and in them we leave our figures as food for reflection.

### Zam-Buk Saves A Farmer's Arm

### SOME SENSATIONAL PROOFS OF IT'S HEALING POWERS.

Every day brings interesting instances to prove the wonderful healing power of Zam-Buk, the herbal balm. Mr. Wm. Singh, a Langensberg (Sask.) farmer, says: "I saved my arm by using Zam-Buk. I had a terrible scalding accident and the arm after the injury 'broke the wrong way.' When I started to use Zam-Buk it was all swollen up and discolored, and a fear of it would have to come off. In a few days Zam-Buk killed the poison, reduced the swelling, and finally healed the arm completely."  
 ECHIBAH CURRIE, Mr. J. P. Curick, of 222 Wilson St., Hamilton, says: "Every winter I used to have eczema on the back of my hands. Last winter I was especially bad—so bad that I had to be off work for three weeks. While suffering acutely I was told to use Zam-Buk. I tried it for eight years I tried all kinds of things for psoriasis, but I got nothing to do me any good until I started Zam-Buk. That quickly worked a complete cure." Zam-Buk has all skin diseases, cuts and bruises, eczema, scalds, sores, ulcers, chapped places, scurvy, all sorts of sores, and it is a wonderful skin medicine. As an ointment it is used for rheumatism, sciatica, etc. All druggists and stores sell it at 50c a box or from Zam-Buk Co., Toronto. 3 boxes for \$1.25. Send us a stamp for duty free box.

# A REIGN OF TERROR.

(Continued from page 1.)

considerable wealth in his cabin, was found there with his throat cut, when investigations were made at his home after he had failed to appear at the trial.

This was the fourth death in this camp. The first was that of Barney Towns, a well known American machinist. Evidence led to the opinion that Towns was killed in the most cold blooded manner and robbed. Suspicion fell on a man whose baggage Towns had taken charge of and whom he had led on the road to Barbara Chismundo, but this was not proved. Other murders followed and the authorities began looking for a new line. A few days later Francisco Arriola, of Durango, was killed by an unknown assassin. And now comes the report that Seneca Cruz Guzmanilla, a well known merchant of that locality, has been found murdered.

Suspicion rested on El Chapo Anselmo, the desperado Anselmo was captured recently, but made his escape from the authorities and still continues to terrorize the inhabitants of Idaho. The authorities have offered a large reward for his capture, or that of the other bandits who infect that portion of the state of Durango.

When Towns, the American, was killed, the authorities ascertained the appearance of the body that he was shot while asleep. Only one shot was fired, and that was through the head. A rope was then tied about the neck, and the body was dragged into the bushes a short distance from the road, and left there. It remained there for several days before being discovered. Towns had evidently been robbed by the assassin, and the same was apparent with the other bodies found.

Assassins in the mining camp have armed themselves and keep a guard around their cabins throughout the night.

## CAPTAIN DROWNED.

Halifax, Nov. 4.—The ninety-ton schooner "Lorna Doone," owned by Dr. Grenfell, of Labrador, arrived at North Sydney this morning, after a voyage of rough weather and thrilling experiences, having lost her captain during Sunday's storm. The little schooner left Pictou on Saturday morning with a full sailing crew, which soon developed into a storm continuing from Saturday night, without abating. At two o'clock Sunday afternoon, while about fifty miles off Cape Merton, N.S., Captain J. W. Roberts was standing near the companion talking with the man at the wheel. The schooner was running before the gale under a double reefed foresail, when she was boarded by a sea which swept her from stem to stern, carrying Captain Roberts to a watery grave.

## Around the City

For Thanksgiving day the Canadian Pacific Railway Company announces a rate of fare and one third for the round trip. Tickets on sale Nov. 7, 8 and 9th, inclusive. Final return limit Nov. 11th.

Reclamation promptly driven from the city with Dr. Shoop's solution is remedy. Don't waste time with common remedies. A test will surely tell. In tablet or liquid form. Sold by all dealers.

Jim White was seen in Strathcona this afternoon. He has made arrangements to meet the strong German Koch on Monday night for a side bet of \$50 and the proceeds of the match. Articles were signed today at Vogel's Packing house. Charles Sutter, the well known Edmonton wrestler, will referee the match.

Read the pain formula on a box of Pink Pain Tablets. When ask your Doctor if it is a headache. Pain means congestion—blood pressure means where. Dr. Shoop's Pink Pain Tablets—Good night pain, womanly pain, pain anywhere. Try one and not so for 25c. Sold by all dealers.

A social and concert will be given by L.O.L. 1034 on Thursday next, Oct. 28th, the anniversary of the Gunpowder Plot. A grand musical program, has been arranged for and refreshments will be served at the close. All Orangemen in the city are cordially invited to attend.

Tickling, tight coughs, can be surely and quickly loosened with a prescription druggists are dispensing everywhere as Dr. Shoop's Cough Remedy. And it is so very, very different than common cough medicines. No opium, no chloroform, absolutely soothing, harmless. The tender leaves of a hawthorn, lung healing mountainous scrub give the curative properties to Dr. Shoop's Cough Remedy. These leaves have the power to calm the most distressing cough and to soothe and heal the most sensitive bronchial membrane. Mothers should, for safety's sake alone, always demand Dr. Shoop's. It can with perfect freedom be given to even youngest babies. Test it yourself and see. Sold by all dealers.

We have been asked to correct the report in our issue of Saturday to the effect that a wrestling match was to take place in the open house on the evening of November 9. The ladies of the English Church are giving their annual Thanksgiving supper in the opera house on that evening.

It isn't so difficult to strengthen a weak stomach if one goes at it correctly. And this is true of the heart and kidneys. The old fashioned way of doing the stomach or stimulating the heart or kidneys is surely wrong! Dr. Shoop first pointed out this error. "Go to the weak on all things of these organs," said he. Each inside organ has its controlling or "inside nerve." When these nerves fail the three organs must suffer. This vital truth is leading druggists everywhere to dispense and recommend Dr. Shoop's Representative. A few days' test will surely tell. Sold by all dealers.

## CHINESE ARE BOYCOTTING JAPS

Hong Kong, Nov. 4.—The rioting which resulted here yesterday from the attempt of those involved to force the local merchants to continue the boycott against Japanese goods has been suppressed by the soldiers, who were called out to patrol the business districts. One Chinese who offered armed resistance was shot. The riots were organized primarily by the students of this city and the disturbance is evidently widespread.

At Singapore similar riots have occurred and a number of merchants said to have shown a desire to continue the boycott and otherwise favor Japan, have been branded as traitors and in several instances marked by having their cars stoned. It is alleged that a Japanese man has been severely and has pledged himself to give any man who slits his throat a so-called "traitor" \$150, and should he be thrown into jail, to see that he is held up to the public as a martyr, and to pay him a dollar a day while in prison. Should one of the traitor merchants be killed, it is alleged the league agree to pay his slayer \$200.

At Canton there have been hints of the same trouble, and a number of ruffians have been hired to attack merchants. Vigorous measures to suppress the rioting have been taken.

"LIKE WAVES OF HELL FIRE," Brierley, Nov. 4.—Provincial W.C.T.U. in normal session here today discussed the use of intoxicants as a corruption.

Mrs. Hiffer, of Welland, emphasizing the great danger. Children had been known to show symptoms for narcosis simply for taste of the wine.

Mrs. Barney, of Rhineland, superintendent of prison visitation for the W.C.T.U. for the world, declared that to men who had just taken the pledge the very smell of communion fermented wine was "like the waves of hell fire," and made all the workers of conscience. In discussing the cigarette problem she said the use of smoking girls in the states was alarming.

A city man writes: "Fragrant, those little Candy Cold Cure Tablets are working wonders in my parish." Preventive surely will check a cold, or the Grippe, in a very few hours. And Preventives are so safe and harmless. No quinine, nothing harsh or sickening. Fine for fevers, restless children. Box of 45 at 25c. Sold by all dealers.

**DOCTORS SAID 'CUT OFF'**  
"The only thing I can do now is to cut the finger completely off. It cannot otherwise be cured." So said one of the leading doctors of Toronto to Mr. W. C. Edwards, P.D.C.R.A.O.F., P.G.M.I.O.O.F., the well-known Erie-Ed Society leader, of Peter Street, Toronto. Almost a year before, Mr. Edwards' middle finger of his left hand very badly and blood poison. For two months the doctor had been treating him, but no good had resulted, and this was the fatal decision. A few years back, Mr. Edwards from his long mutilation which \$500 would not have compensated him for. His hand and arm and caused me terrible agony. After months' treatment the doctor said there was no cure, and amputation would have to take place. I intended to carry the arm. My hand, at that time, was all swollen up and discolored and I had to carry it in a sling. I left that doctor and consulted another.  
After a few weeks' treatment he also told me that operation would be necessary, and the finger would have to be opened up to the hospital to be amputated. I went away to consider when I would have the operation performed, and met a friend who advised me to try Zan-Buk. That night I bathed the hand and put on some Zan-Buk. I got a little sleep for the first time for many nights. In the morning the wound began to heal instead of the foul oozing as in the past. This was a healthy sign so I went on with the Zan-Buk. Well, to cut a long story short, in a few days I cut away the sling and in a few weeks the finger was healed completely. To-day that finger is as good as a new one and I owe it to Zan-Buk.

**ZAN-BUK SAVED HIS FINGER**
